

STAINLESS STEEL ACCESSORIES

Rear Air Cleaner Light Boxes

INSTALLATION INSTRUCTIONS

1. Loosen the two rear bolts attaching the air cleaner mounting bracket to the cab. Only loosen them far enough to allow the light box to slide in behind the bolt head.
2. Align the slots of the light box with the bolts and slide the part in behind the bolt heads.
3. Tighten all the bolts.
4. Attach the white grounding wire on the light bar to a solid chassis ground.
5. Connect the black positive wire to a 15-amp/12 volt switched circuit.
6. Repeat all steps for the other side.
7. Clean with glass cleaner if required.
