GRILL DEFLECTOR

INSTALLATION INSTRUCTIONS

1. Remove protective plastic coating from bolted surface of Grill Deflector.
2. Hold Grill Deflector on side of hood directly behind aluminum grill shroud. And under top seam of hood.
3. When Grill Deflector is in a suitable position, mark paint through bolt holes.
4. Using a 9/32" drill bit, drill the marked holes through hood.
5. Install Grill Deflector using the supplied hardware, and remove the remaining plastic coating.
